

Anderson Five Virtual Academy for Elementary Schools ([Spanish Version](#))

As an alternative to in-person instruction, Anderson Five is implementing a 100% virtual academy of learning. Full-time online instruction may be appropriate for some students, including those who have been identified as having underlying health conditions, are undergoing disease treatment, or for those with family members who are at-risk.

The Anderson Five Elementary Virtual Academy will provide students daily instruction using Calvert Learning Curriculum. Calvert Learning engages students in projects that allow them to apply what they learn, use it in practical and meaningful ways, and then show it to demonstrate mastery and build confidence.

Calvert Learning elementary school curriculum focuses on the four core subject areas: Math, Science, English Language Arts and History/Social Studies. A typical elementary virtual academy school day will include 150 minutes of English Language Arts instruction, 45 minutes of math instruction, 45 minutes of science instruction and 45 minutes of social studies instruction. **To ensure your child successfully completes the Calvert Learning elementary curriculum, an adult must be available to work with the student as lessons are completed.**

Students with an IEP will need to have an IEP meeting to determine appropriate services for virtual learning.

Students who wish to apply for A5VA after the school year has started may or may not be admitted depending on staffing considerations. **Once a student enrolls in the Anderson Five Virtual Academy, the entire school year must be completed in this mode due to staffing considerations. Students may not transition back and forth between in-person instruction and the A5VA.**

Are you ready to commit to virtual learning for the 20-21 school year? This application is due by July 28 (due date changed 7/15/20 8:30pm). The application for A5VA can be found here: <https://tinyurl.com/Apply-A5VA>

Additional information can be provided as questions arise. Please email Brenda Kelley, Executive Director of Early Childhood and Elementary Instructional Services, regarding further questions. (brendakelley@anderson5.net)
