Section B - Character Traits

Benefits:

- It promotes character development through the exploration of ethical issues across the curriculum.
- It develops a positive and moral climate by engaging the participation of students, teachers and staff, parents, and communities.

Section C – Where and When the Student Code of Conduct Applies

The SCC applies to students at all times during the school day, while on school property, while traveling to and from school, at any school-related event, on any vehicle funded by Anderson Five (such as a school bus), and while using the Anderson Five computer network.

The SCC also applies to student behavior outside of school if: (1) a student commits a Level III infraction, and (2) the behavior disrupts or may disrupt the educational process at the school. In other words, students may be disciplined at school for seriously inappropriate behavior off school property and during non-school hours if the behavior will interfere with teaching and learning at the school. Section J – Conduct While on School Property

Parents are encouraged to be active participants in their child's education. A partnership between parents and the school requires meaningful and appropriate communication. As such, we must be civil in our discourse. This requires that:

1. No one disrupts or attempts to interfere with the operation of a classroom or any other area of a school.
2. School rules for access and visitation are strictly obeyed.
3. Legitimate obligations and time constraints are respected.
4. Information that might help reach our common goal is shared. This includes information about safety issues, academic progress, changes that might impact a student's work or events in the community that might impact the school.

In the event of a violation of the above guidelines, the following steps are available:

1. Students who believe they have been treated in an inappropriate manner should report the behavior to a teacher or school administrator.
2. Parents/guardians or community members who believe they have been treated in an inappropriate manner should report the behavior to the staff member's immediate supervisor.
3. Employees who believe they have been treated in an inappropriate manner shall, if personal harm is threatened, report such to the school administrator.
4. Anyone on school district property may be directed to leave the premises by an administrator or other authorized staff. Anyone who threatens to, attempts to, or actually disrupts school or school district operations may be directed to leave the premises by an administrator or other authorized staff and may have limitations placed on their campus access. Disruptive behavior includes, but is not limited to, the physical harm of someone, the intentional cause of damage, the use of loud or offensive language, the use of tobacco, the appearance of being under the influence of alcohol or other intoxicating substances, the use of inappropriate gestures, profanity, and displays of anger.

Section K – Basic Enforcement Procedures

The staff will follow these basic enforcement procedures in instances of Level I Infractions (disorderly conduct):

- a) When the staff member observes (or is notified about and verifies) an offense, the staff member will take immediate action to correct the misconduct. The staff member will use an appropriate sanction and, where necessary, maintain a record of the misconduct and the sanction.
- b) If certain misconduct is not immediately correctable, the staff member should refer the problem to the appropriate administrator for action specified under this policy.

- c) The administrator should meet with the reporting staff member, and, if necessary, the student and the parent/legal guardian, and should assign the appropriate disciplinary action.
- d) Where necessary, the administrator will maintain a complete record of the procedures.

The staff will follow these basic enforcement procedures in instances of Level II Infractions (disruptive conduct):

- a) When the administrator observes (or is notified and verifies) an offense, he/she will investigate the circumstances of the misconduct and confer with staff on the extent of the consequences.
- b) The administrator will notify the parent/legal guardian of the student's misconduct and related proceedings. The administrator will meet with the student and, if necessary, the parent/legal guardian, confers with them about the student's misconduct, and assigns the appropriate disciplinary action.
- c) The administrator will keep a complete record of the procedures.

The staff will follow these basic enforcement procedures in instances of Level III Infractions (criminal conduct):

- a) When an administrator observes (or is notified of and verifies) an offense, he/she will confer with the staff involved, assign the appropriate disciplinary action, and, if appropriate, meet with the student.
- b) If warranted, the administrator should immediately remove the student from the school environment. The administrator will notify a parent/legal guardian as soon as possible.
- c) If appropriate, school officials should contact law enforcement authorities.
- d) Staff will follow established due process procedures when applicable.
- e) The administrator will keep a complete record of the procedures.

Section L – In-School Suspension (ISS)

In-school suspension program

The purposes of in-school suspension are as follows:

- to reduce the amount of school time lost by students
- to provide a means of punishment in lieu of suspension
- to provide a highly structured educational environment for students temporarily not adjusting to regular classroom expectations
- to provide counseling for students who exhibit a negative classroom attitude
- to provide counseling for students who violate school rules and regulations, or who exhibit unacceptable behavior
- to socially isolate students whose behavior and work habits are disruptive in regular classrooms

Procedure

The administration will assign students (20 maximum) to a room separate from other classes. Students will be given a copy of an in-school suspension form to take to their parent/legal guardian. The parent/legal guardian will be notified by phone and/or letter of the student's assignment to the ISS room.

- Students will be expected to complete regular assignments. Students will be responsible for schoolwork and will not be released until all assignments are satisfactorily completed.
- Students will be expected to be willing to correct the behavior which caused them to be suspended. Prior to release from ISS, a meeting or telephone call between the parent/legal guardian, student counselor, teachers and administrators may occur.

Only the principal or assistant principal will assign students to ISS. Failure of a student to perform as requested in ISS may result in additional ISS time and or a suspension from school.

Section M - Suspension of Students (Policy JKD-R)

Investigation of misbehavior

When it appears that a student has engaged in misbehavior warranting suspension, an administrator will investigate the matter and interview everyone who has knowledge about what occurred. The student and his or her parent(s)/guardian(s) will be advised, verbally or in writing, of the accusations against him/her. The administrator also will advise the student of the evidence against him/her and provide him/her the opportunity to tell his/her side of the story. If the student asks the administrator to talk to other witnesses, the administrator will do so, if possible.

After completing the investigation, and based on the student's prior disciplinary history and the severity of the offense, the administrator will determine if suspension is in order and the number of school days, from one to ten, the suspension should run.

Summary suspension

If the administrator sees or is advised of any student misbehavior and concludes the student should be removed from school immediately in order to restore order or to protect others at the school, for example, if the student threatens to kill a teacher or a student, he/she may summarily suspend the student for up to two school days. In these cases, the administrator does not have to investigate the matter first. By the end of the next school day following the summary suspension, however, the administrator should investigate the matter, as outlined above, and determine what, if any, additional suspension days, not to exceed a total of 10, are appropriate.

If the administrator determines that the student should not have been suspended, arrangements will be made for the student to make up any work he/she missed while on summary suspension. The administrator also will remove any reference to suspension from the student's record.

Sending a suspended student home during the school day

When a student is suspended, the administrator will attempt to contact the parent/legal guardian to request that he/she pick up the student from school. If a parent/legal guardian cannot come for the student, the school may take the student home as long as a parent/legal guardian is at home to take charge of the student. If the administrator cannot reach the parent/adult guardian, the student must stay at school until the end of the school day.

If the student is summarily suspended, he/she may be removed from the school grounds immediately. Depending upon his/her age, however, it may be necessary to keep him/her at school until his/her parent/legal guardian can be reached.

Notification to parent/legal guardian

By the end of the next school day following any suspension, the administrator will notify the parent/legal guardian in writing of the following:

- the act(s) committed by the student
- the rule(s) violated
- the length of the suspension
- the time and place when he/she will be available to meet with the parent/legal guardian for a conference

The conference is to be held not more than three school days after the date of the suspension and, if possible, before the student is to return to school.

Suspension appeals

If, after the conference with the administrator, the parent/legal guardian believes the student's suspension was unjustified, an appeal of the suspension may be taken to the district hearing officer. To request an appeal, the parent/legal guardian must write a letter to the hearing officer, within five days after the conference with the administrator, advising the hearing officer why it is believed the suspension was unfair.

The appeal will be conducted as an informal hearing. The administrator, parent/legal guardian and student may be present. If the hearing officer and the parent/legal guardian agree, the student may be dismissed during portions of the hearing. The parent/legal guardian, student and administrator will be allowed to address the hearing officer.

Within 10 school days of the hearing, the hearing officer will render a decision as to whether the suspension was proper. The hearing officer will report his/her decision in writing to the parent/legal guardian, the superintendent and the school. If the hearing officer decides that the suspension was not proper, all absences resulting from the suspension will be excused and the record cleared. The student will be allowed to make up all missed work.

Limits on suspension

A student may not be suspended for more than a total of 30 school days in one school year. An administrator may not suspend a student from school during the last 10 school days of the school year if the suspension would result in the loss of the course credit unless the school board approves, or if the student is an actual threat to the class or the school, or a hearing is granted by the end of the next school day following the suspension.

Trespassing

Students serving out-of-school suspensions are not allowed to come onto school property, participate in extra-curricular activities, or attend school-sponsored events. A student may be considered trespassing if he or she comes onto school grounds while suspended.

Missed school work

Students who have been suspended will be allowed to make up and receive credit for school work missed. It will be the responsibility of the student to make up the missed work within a reasonable time as specified by the teacher.

Section N - Expulsion of Students (Anderson School District Five Policy JKE)

See also Administrative Rule JKE-R

Expulsion is the removal of a student from a school for the remainder of the school year or until readmitted by the board.

A student may be expelled for any reason listed in the student behavior code JICDA, for the commission of any crime defined by South Carolina Code of Laws, or when the presence of the student is deemed to be detrimental to the best interests of the school. Expulsion means the student cannot attend school or be on the school grounds, cannot attend any school-related events or activities on or off campus and cannot ride a school bus.

Procedures for expulsion

If procedures for expulsion are initiated, the parent/legal guardian of the student will be notified in writing of the time and the place of a hearing before a district hearing officer. The hearing shall take place within fifteen (15) days of the written notification at a time and place designated by the

district hearing officer, and a decision will be rendered within ten (10) days of the hearing. The student may be suspended from school and all activities during the time of the expulsion procedures.

At the hearing, the parent/legal guardian will have the right to legal counsel and to all other regular legal rights, including the right to question all witnesses presented by the administration in a manner determined by the district hearing officer.

Every expelled student will have the right to petition for readmission for the succeeding school year.

Section O – Local Law Enforcement/School Resource Officer (SRO) Notification Guidelines

When a student engages in or is suspected to have engaged in illegal activity or poses a danger to the health or safety of others, it may be necessary for school staff to contact a School Resource Officer (SRO) and/or local law enforcement to seek their assistance. School administrators have the discretion to call 911 in emergency situations if students or staff members are in danger. School officials must assess the situation before determining whether or not to contact the local law enforcement. School officials should consider factors including:

- Whether the student presents a danger to the health, safety, or welfare of others,
- Whether the student intends to cause others physical harm, and
- The student's age.

Once school staff members contact local law enforcement, the responding officers ultimately will determine whether or not to investigate, arrest, and/or take any other steps in response. School principals and staff do not have the authority to decide whether a student will be arrested. Moreover, responding officers do not have the authority to decide whether a student will receive interventions or consequences at school. The school principal will use the SCC to determine the appropriate intervention(s) and/or consequence(s) to address a student's behavior. Parents should be contacted by the SRO (law enforcement) and/or school official if the student is arrested or taken into custody.

Section P– Disciplinary Transfers (Anderson School District Five Board Policy JFABC)

The administration may make disciplinary transfers to another school in lieu of suspension or expulsion but only after a conference or hearing with the parent/legal guardian and consultation with both principals.

Disciplinary transfers of students may be based on any reason listed in the student behavior code JICDA, for the commission of any crime defined by South Carolina Code of Laws, or when the presence of the student is deemed to be detrimental to the best interests of the school.

Section Q – Discipline of students with disabilities

Disciplinary process

A student identified as disabled pursuant to the Individuals with Disabilities Education Improvement Act are not exempt from school disciplinary processes, nor are they entitled to remain in a particular educational program when their conduct substantially impairs the education of other children in the program. However, federal and state laws and regulations require the public schools to meet the individual educational needs of disabled children as adequately as it meets the needs of student without disabilities.

Program prescriptions

A disabled student's Intervention or IEP team may prescribe or prohibit specified disciplinary measures for an individual student by including appropriate provisions in the student's Individual Education Plan (IEP). The IEP team must take into consideration the student's disabling condition when deciding whether or not staff may use a particular form of discipline. Administrative authorities should observe any such provisions contained in a disabled student's individual education plan, except that an IEP team may not prohibit the initiation of proceedings for suspension or expulsion which are conducted in accordance with regulation.

Duration of Suspensions

If a student with a disability violates the district's code of conduct, a school administrator may remove the student from his/her current placement to another setting or suspend the student, for a maximum of 10 consecutive school days for that particular incident. For separate incidents of misconduct, the school administrator may remove the student for no more than 10 consecutive school days each in that same school year, as long as the suspensions do not constitute a "change of placement." A "change of placement" would likely to occur under either of the following circumstances:

- The student's suspension from school is for more than 10 consecutive days
- The student is subjected to a series of suspensions from school that constitute a "pattern" because they total more than 10 school days in a school year because the child's behavior is substantially similar to the behavior in previous incidents that resulted in the series of removals, and because of such additional factors as the length of each removal, the total time the child has been removed, and the proximity of the removals to one another.

Removals may be applied only to the extent they are applied to students without disabilities.

Services provided during suspensions

The school is not required to provide services to a student with a disability who has been suspended, so long as the student is suspended for no more than ten (10) cumulative school days during a school year, unless the school provides services to a student without disabilities who is similarly removed.

During any subsequent days of suspension beyond 10 total school days, (so long as the suspension does not constitute a “change of placement” as described above and is for no more than 10 consecutive school days), the school administrative personnel, in consultation with at least one of the student’s teachers, must determine the extent to which services are needed, to enable the student to do the following:

- continue to participate in the general education curriculum, although in another setting
- progress toward meeting goals set out in the IEP.

Longer-term removals

Longer-term removals are those that constitute a change of placement as defined above.

If a removal is a change of placement either because it is a removal of more than 10 consecutive days, or because it is a pattern of removals, the child's IEP team must determine appropriate services. These services must allow the student to do the following:

- continue to receive educational services so as to enable the child to continue to participate in the general education curriculum, although in another setting
- progress towards meeting the goals set out in the IEP and to receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.

The child's IEP team must also follow, as appropriate, the procedures outlined under the “Procedures to follow” section below.

If a disabled student (1) possesses or carries a weapon to/at school, on school premises or to/at school function; (2) knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or at a school function; or (3) has inflicted serious bodily injury upon another person while at school, on school premises or at a school function, the school administrator may remove the student to an “interim alternative educational setting” (as determined by the IEP team) for no more than 45 school days regardless of whether the behavior was determined to be a manifestation of the child’s disability.

- A “dangerous weapon” is defined as a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious

bodily injury, except that such term does not include a pocket knife with a blade of less than 2 ½ inches in length.

- "Serious bodily injury" means bodily injury which involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of a function of a bodily member, organ, or mental faculty.

The "interim alternative educational setting" must be determined by the IEP team. Any interim alternative educational setting:

- must enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting goals set out in the IEP
- receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications designed to address the behavior violation so that it does not recur.

If the child is removed for up to 45 school days under special circumstances described in this section, the child's IEP team must determine appropriate services. These services must allow the student to do the following:

- continue to receive educational services so as to enable the child to continue to participate in the general education curriculum, although in another setting
- progress towards meeting the goals set out in the IEP and to receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur

The child's IEP team must also follow, as appropriate, the procedures outlined below.

Procedures to Follow

Send Notice to Parents

In addition to appropriate standard notifications sent to parents of non-disabled students regarding disciplinary actions, no later than the date on which the decision is made to impose a removal that would constitute a change of placement because of a violation of a code of student conduct, the District must notify the parents of the decision and provide procedural safeguard notice.

Conduct a Manifestation Determination

The Relevant members of the IEP team as determined by the parent and the District must also conduct a manifestation determination within ten (10) school days of any decision to "change the placement" of a child with a disability because of a violation of a code of student conduct. A manifestation determination may be conducted by the team to review a student's misconduct at a point earlier than required, irrespective of whether any disciplinary action taken would constitute a "change of placement." Thus, the mere convening of such a meeting does not constitute an admission on the part of the school personnel that the disciplinary action taken amounts to a "change of placement."

Finding that conduct was related to a student's disability.

The team may determine that the behavior of the student was a manifestation of the student's disability if the team reviews all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents, and determines: (i) the conduct in question was caused by or had a direct and substantial relationship to the child's disability; or (ii) the conduct in question was the direct result of the District's failure to implement the IEP.

If the team determines that either of the above apply, then the behavior must be considered a manifestation of the student's disability.

If the conduct is a manifestation of the child's disability, the IEP team must:

- conduct a functional behavioral assessment and implement a behavioral intervention plan if the District had not already done so before the behavior resulting in the change in placement;
- where a behavioral intervention plan had been developed, review the behavior intervention plan and modify it, as necessary, to address the behavior; and
- except in special circumstances including drugs, weapons, or serious bodily injury as discussed above, return the child to the placement from which the child was removed, unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

Finding that conduct was not related to a student's disability.

If the multidisciplinary team determines that an IDEA-disabled student's misconduct was not a manifestation of his/her disability, the student may be disciplined to the same extent that a nondisabled student may be disciplined, subject to procedural safeguards; however, the student must be provided services that enable the student to participate in the general education curriculum and progress toward meeting the goals set out in the student's IEP and a functional behavior assessment and behavioral intervention services and modifications, as appropriate, that are designed to address the behavior violation so that it does not recur. The IEP team shall determine the services to be provided.

Conduct or Review a Functional Behavioral Assessment and Develop or Review a Behavioral Intervention Plan

Either before or no later than ten (10) school days after suspending a student for more than 10 school days in a school year or commencing a removal that constitutes a "change of placement," the school must either:

- convene an IEP meeting to develop an assessment plan to address the behavior (if the school did not conduct a functional behavioral assessment and implement a behavioral intervention plan for the student before the suspension was imposed); or

- if the student already has a behavioral intervention plan, the IEP team shall review the plan and modify it, as necessary, to address the behavior.

If a student is subjected to additional suspension days beyond 10 days in a school year which do not constitute a “change of placement,” the IEP team members shall review the behavioral intervention plan and its implementation, as appropriate, to determine if modifications are necessary, and make any such modifications.

Referral to law enforcement

Nothing shall prohibit a school district from reporting a crime committed by a student with a disability to appropriate authorities as provided under Section 59-24-60. In reporting such a crime, the school shall ensure, consistent with the requirements of the Family Educational Rights and Privacy Act, that copies of the special education and discipline records of the student are made available to the appropriate authorities to whom it reports the crime.

Section R – Prohibited Object Disclosure Provision

A student who inadvertently possesses or finds a prohibited object shall immediately notify school staff and surrender the object. A student may approach a school staff member and voluntarily surrender an object prohibited by the Student Code of Conduct without being subjected to discipline so long as the object is one that the student could lawfully possess off school grounds. This rule does not apply to firearms or destructive devices.

If a student discovers an illegal object (i.e., drugs or weapons) or other contraband on school property or at a school function, the student may approach a school official and report the discovery. A student shall not be in violation of the Student Code of Conduct solely for making such a report. School officials shall make a determination after an investigation of the report.

The Prohibited Object Disclosure Provision may not apply if a search is ongoing in any location at the school, if the object is surrendered during a search, or if the object is not turned in prior to discovery by school staff with respect to objects that have been turned over to school staff, the parent/guardian must make arrangements to pick up the object from the school, unless it is an object that must be turned over to law enforcement.

Section S – Extenuating, Mitigating, or Aggravating Circumstances

The board may give the appropriate administrator the authority to consider extenuating, mitigating or aggravating circumstances which may exist in a particular case of misconduct. The age of the student could be a mitigating factor when dealing with elementary students. The administrator should consider such circumstances in determining the most appropriate sanction.

Section T – Search and Seizure

School administration has the right to conduct a search that is reasonable in scope of a student or his/her possessions if the administration has a reasonable suspicion that the student may be in possession of a weapon, illegal substance or other items prohibited by or used in violation of law or the Student Code of Conduct. In accordance with SC Act 373 of 1994, any person entering the premises of any school shall be deemed to have consented to a reasonable search of his/her person and effects.

- a) **Search of an Individual and/or his/her Possessions:** A student must cooperate with and may not obstruct or interfere with a reasonable and authorized search of the student and/or his/her possessions based on reasonable suspicion that the student may be in possession of a weapon, illegal substance or other items prohibited by or used in violation of law or the Student Code of Conduct.
- b) **Search of Student Lockers and Desks:** Lockers and desks are the property of the school and are assigned to the student with the understanding that he/she is responsible for all property placed in the locker or the desk. Lockers and desks shall be used only for storage of those items that are reasonably necessary for the student's school activities such as books, gym clothes, coats, school assignments, etc. A student must cooperate with and may not obstruct or interfere with an authorized search of his/her locker or desk.
- c) **Search of a Vehicle:** A student must cooperate with and may not obstruct or interfere with reasonable search of the student's vehicle and its contents when it is present on school property or at a school activity. These searches will be based on reasonable suspicion that the student may be in possession of a weapon, illegal substance or other items prohibited by or used in violation of law or the Student Code of Conduct. A violation of this rule may result in the student losing his/her driving privilege, in addition to other applicable discipline.

Section U – Gang and Gang-Related Activities

No student shall commit any act that furthers gangs or gang-related activities. A gang is any ongoing organization, association or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of criminal acts, or the purposeful violation of any district policy, and having a common name or common identifying sign, colors or symbols. Conduct prohibited by this policy includes:

- a) **Clothing:** Wearing, possessing, using, distributing, displaying, or selling any clothing, jewelry, emblems, badges, symbols, signs, visible tattoos and body markings, or other items, or being in possession of literature that shows affiliation with a gang, or is evidence of membership or affiliation in any gang or that promotes gang affiliation;

- b) **Communication:** Communicating either verbally or non-verbally (gestures, handshakes, slogans, drawings, etc.), to convey membership affiliation in any gang or that promotes gang affiliation;
- c) **Vandalism or Destruction of Property:** Tagging, or otherwise defacing school or personal property with gang or gang-related symbols or slogans;
- d) **Intimidation/Threats:** Requiring payment for protection, money or insurance, or otherwise intimidating or threatening any person related to gang activity;
- e) **Coercion:** Inciting other students to intimidate or to act with physical violence upon any other person related to gang activity;
- f) **Solicitation:** Soliciting others for gang membership;
- g) **Conspiracy:** Conspiring to commit any violation of this policy or committing or conspiring to commit any other illegal act or other violation of school district policies that relates to gang activity.

Unless otherwise specified, Gang and Gang-Related Activities are considered Level II and III infractions.

Section V – Participation in Extracurricular/Co-curricular Activities

In order to participate in extracurricular/co-curricular activities or athletic programs, students must adhere to Board of Education policies, school-level criteria, South Carolina High School League rules (where applicable) and law. The district's behavioral expectations extend beyond the classroom and school campus. Therefore, regardless of when and where the charge arises, any student who commits a felony or is charged with or adjudicated/found guilty of a felony may be excluded from participation in extracurricular/co-curricular activities.
