

# HIGH SCHOOL AUDITION INFO

Audition information for the 2020-2021 school year

## About Our School

Southwood Academy of the Arts is a public magnet school for the Visual and Performing Arts in Anderson Five.

High school students in grades 9-12 travel from their home schools to SAA for arts classes. Transportation is provided to the Academy from the high schools in the district at no charge to the student. Classes meet daily for one semester.

## General Requirements and Process

SAA is an auditioned-based school. **Most** courses require an audition to attend. Please review the back of this sheet for specific course audition information. Following the audition, a letter will be sent to the auditioning student at their home school with acceptance information.

All students must have maintained a C average or better in all courses the previous school year to be accepted. If a student was in ISS 3 or more times, suspended or expelled, the student is not eligible to attend the Academy. Guidance departments will receive one list of accepted students for registration purposes.
